G5

G5 represents the pinnacle of Sencotel patented technology and design. The world's smallest professional slush machine, it is the ideal equipment for limited space or low slush, sherbet or cold drink consumption.

Practical and compact (up to 30% smaller than standard slush machine), it is also professional and attractive at the same time. G5 is the ideal machine for making new frozen beverage, like frozen coffee and frozen cappuccino and desserts, whose dairy fat content means frequent preparation in order to maintain their natural characteristics of freshness.

Available the models with 1, 2 and 3 bowls with external plastic component in black and white colour.

The machine is equipped with an innovative electronic thermostat with a digital display, that it indicates the temperature of the beverages. The solution is in compliance with the new regulations for drinks conservation.

CARACTERÍSTICAS PRINCIPALES:

- Dimensiones extraordinariamente reducidas del depósito (5 lt.).
- El grifo en forma de campana garantiza una higiene y una limpieza perfectas.
- Paneles de acero inoxidable.
- Sistema de conducción del líquido de condensación del depósito.
- Depósito y grifo fáciles de desmontar sin emplear herramientas, lo cual permite una limpieza rápida y una higiene completa.

MAIN FEATURES:

- Low production capacity each bowl (5 lt.).
- Sleek, new, bell-shaped spigot for perfect hygiene and thorough cleaning.
- Stainless steel panels.
- Condensate channelling system.
- Bowl and tap easily removable without the aid of any tool for quick cleaning and total hygiene.

CARACTÉRISTIQUES PRINCIPALES:

- Dimensions de la cuve extrêmement réduites (5 litres).
- Forme spéciale du robinet «en cloche» pour garantir une hygiène et un nettoyage parfait.
- Panneaux en acier inoxydable.
- Système de canalisation de la condensation de la cuve.
- Cuve et robinet faciles à démonter, sans utilisation d'outils, pour un nettoyage rapide et une hygiène parfaite.
